

About Schneck Medical Center

Schneck Medical Center is in constant pursuit of ways to provide excellent care. Since 1911, we have evolved from a 17-bed hospital to one of the most respected health institutions in the nation.

Today, Schneck was the first organization in Indiana to be honored with the Malcolm Baldrige National Quality Award, the nation's highest presidential honor for quality and performance excellence. Schneck was among only four U.S. hospitals recognized for their leadership and innovation in quality improvement and safety at the American Hospital Association Leadership Summit Awards and Recognition Program.

Schneck is among only 8.5 percent of hospitals nationwide that have achieved Magnet® status from the American Nurses Credentialing Center. Of those, Schneck is among less than 1 percent to achieve Magnet recognition four consecutive times.

Schneck's Cancer Center has been honored by the American College of Surgeons for excellence as the recipient of a commendation from the Commission on Cancer and the Outstanding Achievement Award for cancer care. Its Women's Imaging Center has been designated as a Breast Imaging Center of Excellence. And, its hip and knee replacement program has received The Joint Commission's Gold Seal of Approval for quality and safety and has been designated a Blue Distinction Center by Blue Cross Blue Shield.

Schneck has been named as one of Indiana's "Best Places to Work" and recognized nationally as a "Best Place to Work" in healthcare by Press Ganey, The Advisory Board Company, *Becker's Hospital Review*, *Modern Healthcare* magazine, and *HealthExecNews*. It has also been ranked as the #1 Most Nurse-Friendly Hospital in the nation by *TopRNtoBSN* and Best Hospital Finance Department by *Healthcare Finance News*.

Overview

- 87 private-patient suites
- Nearly 300 physicians
- Over 1,000 associates

Technology

COMMUNITY COMMITMENT

For more than 100 years, Schneck has been the cornerstone of health services in our community. We don't know what the next 100 years hold, but we can help shape a bright future for our community today through Schneck's wellness programs and community initiatives. Our mission is to improve the health of our communities. We believe we can and will make our community healthier for generations to come.

- Schneck Foundation Healthy Communities—programming which educates on health issues important to the community.
- EPiC—Employee Partners Invested in Caring—Over 80% of Schneck employees are members of EPiC—the employee arm of the Schneck Foundation. This membership exceeds the national average of 34%.
- Healthy Jackson County—A collaboration of many organizations within Jackson County, Indiana to improve the health of our community residents. The organization focuses on three key areas: Improving Nutrition, Decreasing Tobacco Use, and Increasing Physical Activity.
- Scholarship Program—Residents of Jackson, Jennings, Scott and Washington counties pursuing careers in allied health, nursing, or medicine can apply for tuition assistance through Schneck's robust scholarship program.
- Wellness Program—Schneck offers a variety of no-cost classes, informational seminars, and support groups.
- Free and Reduced-Cost Screenings—Schneck offers several free and reduced cost screenings for cancer and cardiovascular health.
